What materials can be made ?
TPU

1. High strength: TPU has high tensile strength and tear strength, which is higher than most synthetic rubbers and natural rubbers.
2. Wear resistance: TPU has good wear resistance and can maintain its shape and performance during long-term use.
3. Cold resistance: TPU can maintain its elasticity and performance at low temperatures, so it is suitable for use in cold environments.
4. Good processability: TPU can be processed by injection molding, extrusion, calendaring and other methods, and the surface of the molded product is smooth.
5. Environmental protection: TPU material can be recycled and reused, which is environmentally friendly.
6. Free of BPA

Why choose us?

SUPPLY

How do we control it?

我们如何控制?

We have cooperated with most of our suppliers for more than ten years.

They all have passed our strict supplier evaluation and provide quality materials and accessories at relatively steady prices.

We access all the new suppliers austere, including trial orders and testing the materials in the lab.

After several times good cooperation, they could be on our formal supplier list.

Through a good cooperation, we can enter our formal supplier list.

We also have popular materials and accessories stocked to prepare for sudden price variation.
